Subject: ITC Deer Park Response
Attachments: ITC CERCLA Statement of Work Highlighted Wastewater Discharge Language 4-5-19.docx

Hi Margaret and Guy,

I just left voice-mail messages with you and thought I'd follow up by email. I was wondering if you both would be available for a conference call later this afternoon with ITC counsel and me. We would like to discuss ITC's proposed approach to dispose of approximately 14 million gallons of wastewater accumulated (and continuing to accumulate) as part of the response. In that vein, ITC counsel has given me permission to share with you a copy of the proposed Statement of Work (SOW) currently under negotiations (attached). In particular, ITC's proposal can be found in the yellow highlighted text under Item 6 of the proposed SOW.

Would you both be available for a conference call at 2:30 pm? If not, is there a time that is convenient for you both to have a call? We are hoping a discussion can lead to a workable solution for TCEQ, ITC and EPA on this issue.

Thanks for your time and best regards,

Edwin Quinones
